PROFESSIONAL SUMMARY

Computer Science Diploma student (2023–2026) specialising in Python development, RESTful API development using Django REST Framework (DRF), and scalable backend system design. Proficient in OOP, CRUD operations, Django ORM, and role-based access control with hands-on experience in data cleaning, Exploratory Data Analysis (EDA), and interactive dashboard development using Power BI. Seeking a Python Developer, Backend Developer, or Data Analyst role.

TECHNICAL SKILLS

Languages: Python, Java (Basic)

Frameworks: Django, Django REST Framework (DRF)

Core Concepts: Object-Oriented Programming (OOP), REST API Design, Authentication, Database Design

Backend Skills: RESTful API Development, CRUD Operations, Django ORM, Role-Based Access Control

Databases: MySQL, SQLite, SQL

Data Analytics: Data Cleaning, EDA, Power BI, DAX, Power Query, MS Excel

Libraries: NumPy, Matplotlib

Tools & Platforms: Git, GitHub, Postman, VS Code, MySQL Workbench

Web Technologies: HTML, CSS, Django Templates

INTERNSHIP EXPERIENCE

Python Development Intern — Saiket Systems

Apr 2026 – May 2026 | Remote | Intern ID: SKS/A2/C114168

- Developed and delivered Python-based development tasks and assignments, producing clean, well-structured code aligned with real-world software engineering practices.
- Demonstrated strong REST API design skills by architecting and documenting backend solutions, communicating technical decisions clearly to stakeholders.
- Applied Object-Oriented Programming (OOP) principles consistently across all assignments, reinforcing code modularity, reusability, and maintainability.
- Recognised for exceptional attention to detail, sincerity, and rapid acquisition of new Python development skills throughout the internship duration.

PROJECTS

FinanceTrackerBackend Python · Django REST Framework · SQLite

- Engineered a RESTful backend system using Django REST Framework and SQLite to manage financial transactions including income and expense tracking.
- Developed CRUD APIs with input validation, dynamic filtering, and real-time balance summary endpoints, ensuring accurate financial reporting.
- Designed relational database models with role-based access control and validated all API endpoints using Postman to guarantee reliability.

MiniBankingSystem Python · MySQL · OOP

- Built a backend banking application using Python OOP and MySQL, supporting account creation, deposits, withdrawals, balance inquiries, and full transaction history.
- Implemented CRUD operations using Python's Decimal module for precise financial calculations, eliminating floating-point errors in monetary transactions.
- Enforced database integrity through foreign key constraints and schema normalisation for consistent and reliable data storage.

StudentManagementSystem Python · Django · HTML · CSS · SQLite

- Built a full-stack web application using Django MVC architecture with complete CRUD operations via Django ORM for end-to-end student record management.
- Designed a responsive UI using HTML, CSS, and Django Templates with Django Admin Panel integration for streamlined administrative control.
- Structured application logic following separation-of-concerns principles, ensuring scalability and maintainability.

SalesPerformanceDashboard Power BI · DAX · Power Query

- Designed an interactive sales analytics dashboard tracking KPIs — revenue trends, category-wise performance, and target-vs-actual comparisons using bar charts, pie charts, trend lines, and KPI cards.
- Applied end-to-end data cleaning and transformation using Power Query and DAX, ensuring data accuracy across all reporting layers.
- Enhanced analytical depth with dynamic slicers, filters, and drill-down capabilities for multi-dimensional business performance analysis.

EDUCATION

Diploma in Computer Science — KIT Varanasi | 2023–2026 (Pursuing) | 70%

Class 12 — UP Board | 2022 | 67.9%

Class 10 — UP Board | 2020 | 77.16%

CERTIFICATIONS & TRAINING

- Data Analytics Job Simulation — **Deloitte** (via Forage) | March 2026 | Data Analysis, Forensic Technology

- Python Development Internship — **Saiket Systems** | Apr 2026 – May 2026 | Python Development
- ASP.NET MVC Summer Training — **SMPS Innovation Infotech Pvt. Ltd.**, Lucknow
- Employability Enhancement Programme — **Centum Foundation** (Infosys Foundation), Varanasi | Jun–Jul 2025 | Grade: A+
